Community Education Class Summer 2017

Bryophyte Basics

—*David Popp*

This class will be a brief survey of Bryophytes in the local area and how to identify them using dichotomous keys. Students will use microscopes in the lab and go into the field to various habitats to see them in their natural state. Students will be introduced to the life cycle of Bryophytes, characteristics of the three main groups (mosses, liverworts, hornworts), and how to recognize them. This will be an introduction to the group and no prior knowledge will be needed.

Liverwort
Asterella

Hornwort
Anthoceros

Date: June 17 & 18, 2017

Day of the Week: Saturday, Sunday

Course Fee: \$0.00

Time of Day: 9:00 a.m.—5:00 p.m.
